Internal Audit Report: AML Alert Handling Review

Document ID: DCB-IA-2026-03 | Version: Final | Status: Current

Effective date: 2026-05-20

Classification: Confidential | Owner: Internal Audit

1. Scope

Review of AML alert handling for January to March 2026, covering 5,412 alerts and 214 investigations.

2. Key Findings

F1: Average time to close an alert was 4.2 working days against a 3-day target for Medium priority. F2: 31 percent of compliance responses to business queries did not cite a source document, and 6 percent cited a superseded version. F3: 12 escalations to the Principal Officer exceeded the 2-working-day internal window. F4: 89 percent of alerts were closed as false positives.

3. Ratings

F1: Medium. F2: High. F3: High. F4: Observation.

4. Management Actions

Compliance to deploy a document intelligence solution with mandatory citations by Q4 2026 (owner: Chief Compliance Officer). AML Investigations to introduce automated case assembly (owner: AML Investigations Lead).
