

Deccan Commonwealth Bank

Know Your Customer (KYC) Policy

Document ID: DCB-POL-KYC | Version: 3.2 | Status: Superseded

Effective date: 2024-04-01 | Superseded by version 4.0

Classification: Internal | Owner: Compliance Department

1. Purpose and Scope

This policy sets out how Deccan Commonwealth Bank identifies and verifies customers and keeps customer information current. It applies to all branches and business units.

2. Customer Acceptance

DCB will not open an account where the customer's identity cannot be verified. Customers classified High Risk at onboarding require approval from the Branch Manager before activation.

3. Customer Risk Categorisation

Every customer is assigned a risk category of Low, Medium or High at onboarding. PEPs and cash-intensive businesses are classified High Risk by default.

4. Enhanced Due Diligence for PEPs

Onboarding a PEP requires approval from the Zonal Compliance Head. The customer must provide a source of funds declaration. PEP relationships are reviewed at least once every 24 months.

5. Periodic Updation of KYC

KYC records are updated at least once every 2 years for High Risk customers, once every 8 years for Medium Risk customers and once every 10 years for Low Risk customers.

6. Internal Cash Monitoring Thresholds

A single cash deposit of Rs 5,00,000 or more generates an internal monitoring alert for review by the Transaction Monitoring team.
